Oikos	Croatia	17,200	100	4	Municipality of Krk (Croatia)	Local budget	August – October 2006	-
Detailed description of project						Type of services provided		
<p>The purpose of the project is three fold. The first aim is the preparation of a strategy for the Municipality of Krk for the period 2007-2013. On this basis a long-term strategy for the development of the municipality up to the year 2020 could be defined. With the preparation of the strategy the priority projects of the municipality will be defined and devised, to be later used for applications for EU funding opportunities (this is the second aim of the project).</p> <p>The third aim of the project is to educate the stakeholders in the municipality regarding different project preparation tools and available tenders. The activities listed above will therefore contribute towards the creation of a strategy which will enable balanced and sustainable development of the municipality and also boost its development with the aid of European Union funds.</p>						<ul style="list-style-type: none"> <li>• Context analysis of the present situation</li> <li>• Definition of the development vision</li> <li>• Definition of strategy goals</li> <li>• Definition of the strategy for realisation of goals</li> <li>• Implementation strategy</li> </ul>
