Oikos	Slovenia	110,000	76%	5	Družba za avtoceste Republike Slovenije (Slovenia Highway Authority)	Cohesion Fund (European Commission)	SEA: September 2006 – March 2007 EIA: March 2008 - ongoing	Epi Spektrum Geologija Idrija
<i>Detailed description of project</i>						Type of services provided		
<p>An SEA was conducted for the Master Plan for construction of a section of the highway that is going to connect Croatia and Austria through Slovene territory. Within the project, a team of experts has devised analytical methods and indicators for an SEA of road development plans. An environmental impact assessment was carried out as well, since part of the highway passes through 2 Natura 2000 sites. Following the acceptance of the Master Plan, an EIA is currently being prepared.</p>						<ul style="list-style-type: none"> • Environmental assessment • Inventory of habitats and priority species according to Habitats and Birds Directive • Preparation of mitigation measures • Consultation with key stakeholders • Management plan for compensatory measures – compensatory habitats
